Attention: Dorn Beattie/President

Dear Dorn:

As the proud and happy owner of my second "MIGI", I wish to express my satisfaction with your vehicles.

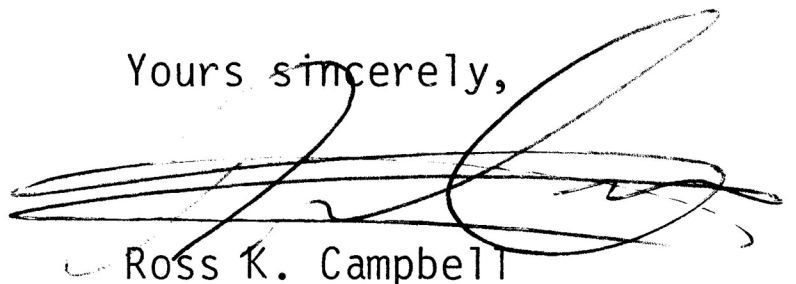

I have made two trips to California and back, both of which were trouble free. This area is "Kit Car Country" and I was particularly pleased to receive many compliments about my car. I even experienced people asking to have their picture taken with it.

The "MIGI" seems to have a charisma that attracts compliments, smiles and stares from young to old.

My current "MIGI", purchased in July of 1982, has just clocked 19,596 miles and is still performing virtually trouble free.

In closing I remind you to keep me advised as to when your front engine model will be available.

Yours sincerely,

A handwritten signature in dark ink, appearing to read 'Ross K. Campbell', with a large, sweeping loop at the end.
